

SAFETY ON THE LINE

A service of the NASA KSC Safety and Mission Assurance Directorate

January 2007

Life's most persistent and urgent question is, What are you doing for others?

-- Martin Luther King Jr.

•Safety & Health Organizational Focus •JANUARY 16 - FEBRUARY 15, 2007

"All Hands on Safety & Health"

There is no better way to begin this new year than to focus on Safety and Health. This year's Safety and Health Organizational Focus, **"All Hands On Safety and Health"** will allow for detailed discussions as they pertain to your actual work setting and its possible hazards. Like last year, a Safety and Health Organizational Focus website will be available for employees to obtain the mandatory S&H training package, as well as other useful information. KSC Directorates are encouraged to partner with their support contractors during their safety and health organizational focus activities. You will receive more information from your organization as we draw closer to this time frame. Stay tuned as we encourage participation to make 2007, a better and safer year!

•Facility Evacuation Plans

Are you aware that each facility housing more than 10 occupants must develop a Facility Emergency Evacuation Plan that describes travel routes out of the facility, location of assembly areas, and methods used to account for facility occupants during evacuations?

Do you know the plan to evacuate your facility? Do you know where to find it? Facility Evacuation Plans can be found at:

http://businessworld.ksc.nasa.gov/Businessworld/html/safety_health.html

**February
is American Heart
Month
For more
information go to:
Americanheart.com**

•Reporting Safety Issues and Concerns

Emergencies – Call 911 or 321 867-7911 on a cell phone

Report Safety Issues and Concerns to:

- Your supervisor, or the supervisor in charge of the activity;
- Your Safety Organization (for contractor activity), or your NASA Safety organization;
- The KSC Safety Hotline - 867-SAFE (867-7233)
- The KSC Ombuds, James Thompson, 867-7484
- **When in doubt who to report a safety issue to, call the KSC Hotline or the KSC Ombuds**

Do you have questions, comments, or an article you would like to submit? Contact Marguerite Davis at 867-8520, fax number 867-1120, mail code SA-E2 or e-mail them at "Safety on the Line" found in your global address list. Safety on the Line is also on the Web at <http://sotl.ksc.nasa.gov>.
